

**Position Overview:**

1. Sorts processed scrap material as it moves along a conveyor in accordance with product specifications. Puts non-conforming items and trash into designated containers.
2. Performs preventive and routine maintenance on shear and shredder conveyors. Assists with major maintenance on conveyors and other equipment.
3. Moves the stacking conveyor to the proper location for the type of scrap being prepared.
4. Maintains a clean and safe work area.
5. Knows and follows company policies and safety procedures – properly uses safety equipment.
6. Performs other duties and work assignments as needed.
7. Knows the company quality policy and location of written policies and procedures.

**Position Qualifications:**

1. Experience working with ferrous and non-ferrous scrap metals.
2. Ability to work in a fast-paced, non-stop environment.
3. Must be able to work in all weather conditions.
4. Willing to cross-train in other positions and assist other teammates as needed.

**Physical Requirements:**

Physical job demands include but are not limited to: bending, stooping, squatting, kneeling, twisting, reaching over head, lifting, pushing or pulling up to 50 pounds, and climbing ladders or stairs.

**Equal Opportunity Notice:**

Henry Fligeltaub Company is an equal opportunity employer and a drug-free workplace that requires pre-employment drug screens.
